Thanks, Cyndi. We are aware of the FOIA. Apple is going to respond to it, but she is waiting until we get confirmation that the company has received the hardcopy via mail (the certified receipt). I would tell Janet not to send it to the FOIA requestor, yet. She can coordinate with Dan or I regarding the status of Apple's response to the FOIA requestor and get confirmation that the copy was received by Hilcorp.

Thanks, I was just wondering if it had been issued - we have a FOIA that appears to be requesting this particular 114. I told our FOIA officer that the 114 would have come from HQs, but wasn't sure if it had actually gone out yet. I did give her (Janet Adams) both your name, Chris, and also Dan's name. I'll let her know it is now issued and see about the status.

Thanks for the information. We have no need to discuss further prior to the request being sent. In New Mexico operators submit completion or recompletion notices to the Oil Conservation Division (OCD) so they don't submit them to NMED/AQB. We can access the records on file at OCD.

Thanks-

Ralph

Subject: EPA Information Request to be sent to Hilcorp

Hi Ralph,

I'm following up on the other matter I mentioned in my voice mail earlier this week, the information request that EPA's Office of Enforcement and Compliance Assurance is planning to send to Hilcorp. EPA is seeking information re: well completion activities (NSPS 0000a completion or recompletion event notification, required by 40 CFR §60.5420a(a)(2)), and requirements related to using a separator during well completion activities (40 CFR §60.5375a(a)(1)(iii) requires operators to have a separator onsite at each well affected facility during the entirety of the flowback period for completions and recompletions, except as provided in 40 CFR §60.5375a(a)(1)(iii)(A) through (C)).

The well completions or recompletions took place in San Juan and Rio Arriba counties, NM.

Please let me know if you'd like to discuss this further prior to HQ sending the information request.

Thanks,

Darrin
